the lowest tender may be
accepted as stated by the
Chief Engr for R + B
It is not fair to the lowest
tenderer to ask another
firm to take it up (though
his rates are higher) as the
lowest tendered rate. It
is the pernicious practice
that leads to agitation in
local bodies & Elsewhere. The
President does not say why
the lowest tenderers firm's
Pattasawamy & Bros should
not be accepted. When it was
decided that fresh tenders should
be called for, there is no bench
in going behind that decision
that would not be a fair deal
In the interests of fair treatment,
the lowest tender can to be accepted
